Dear Dr N Rabia:

Thank you for reviewing the above manuscript, entitled "The potential to induce systemic resistance and functional genes against phytopathogens affecting tomatoes (*Solanum lycopersicum*)" for Journal of Plant Nutrition.

On behalf of Taylor & Francis and the Editors, we thank you for donating your time and expertise to the peer review process. We hope that you will be happy to review further manuscripts for us in the future. In the meantime, enjoy your complimentary 30 days' free access to journals on Taylor & Francis Online.

Simply follow this link to activate access to this content:

<http://www.tandfonline.com/r/revieweraccess>

You will first be asked to sign in or register. If you are already registered on Taylor & Francis Online, please sign in. To register, click the 'Register' button at the top of the screen and follow the instructions.

We greatly appreciate the voluntary contribution that each reviewer gives to the Journal. We hope that we may continue to seek your assistance with the refereeing process for Journal of Plant Nutrition, and hope also to receive your own research papers that are appropriate to our aims and scope.

We would be interested to hear your experience of reviewing for us today, please click the following link to complete a short survey: <https://survey.alchemer.eu/s3/90329429/Taylor-Francis-peer-review-survey?ac=LPLA>

Sincerely,

Dr Mills

Editor in Chief, Journal of Plant Nutrition
